

## Childhood Immunisation Coverage

The following tables provide the latest annualised quarterly report on childhood immunisation coverage for the **March 2016, June 2016, September 2016 and December 2016 assessment quarters** from the Australian Immunisation Register (AIR).

The data show the proportion of children fully immunised at age 12 months, 24 months and 60 months according to the Australian Standard Vaccination Schedule. A full description of the methodology used can be found in *Communicable Diseases Intelligence* 1998;22(3), 36-37.
